

Soft Foam Earplugs

Product Information

Comfort for your ears

If you have trouble sleeping at night and need to block out the sound of someone snoring or need protection from harmful or irritating sound at work or at home, then Soft Foam Earplugs could be the answer.

Developed by Cirrus Healthcare Products LLC, Soft Foam Earplugs provide gentle protection and comfort for your ears by reducing ambient noise generated by sources such as traffic, do-it-yourself activities, road works, industrial noise and snoring.

Sound attenuation (EN 13819-2:2002 Clause 4.2)

Frequency (Hz)	125	250	500	1000	2000	3150	4000	6300	8000
Mean attenuation (dB)	22.3	24.9	25.8	26.6	33.6	38.3	38.5	39.4	38.5
St. dev. (dB)	4.6	6.0	6.8	6.0	5.2	3.6	2.5	5.4	5.7
APV (84%)	17.7	18.9	19.0	20.6	28.4	34.7	36.0	34.1	32.8

H ₈₄	=	28	Db
M ₈₄	=	22	Db
L ₈₄	=	20	Db
SNR ₈₄	=	26	Db

How Soft Foam Earplugs work

With clean hands which are free of any hand lotions or cream, the earplug is squeezed between the fingers until it is compressed and then inserted into the ear canal. The plug then expands to block out the sound of any noise.

Product Features

Soft Foam Earplugs are fully disposable and should be replaced once dirty or damaged.

One size will fit all but are not suitable for children under 6 years of age.

The product is hygienic but should be stored in its packaging until its use and then disposed of afterwards.

The earplug can be used to:

- Block out the sound of snoring
- For travel
- For sport
- For DIY or working

Cirrus Healthcare are proud sponsors of Joanne Jackson, Olympic & World Championship medallist.

Joanne uses our BioEars and ClearEars products.
